PLAY NETWORK

MAKE YOUR LEARNING VISIBLE

SCIA

Singapore Cambodia
International Academy
Enrichment Hub

WHAT IS ENRICHMENT HUB?

SCIA Enrichment Hub is specially designed to complement students' academic curriculum and reinforce their holistic development through CAMPS & the school's Signature Programme. We are aiming to make learners' learning visible through a variety of programmes ranging from Performing Arts, Sports, STEM, Clubs & Society.

COME AND PLAY. ENROLL WITH US.

SCIA is collaborating with partners who share similar vision and values to strengthen our identity as an Enrichment Hub.

We have curated and developed programmes that align with the school's Holistic Education framework of CAMPS and Signature Programmes of Leadership, Entrepreneurship and STEM.

Beyond the regular curriculum, students will now have more opportunities to develop holistically both in campus and online. We are here to provide series of educational activities for your children after school and on weekends!

These variety of activities and programmes will commence in Term 2, mid October, of this academic year.

BALLET

SCIA
Singapore Cambodia
International Academy
Enrichment Hub

WITH PHNOM PENH DANCE STUDIO

This class is designed to work on large motor skills as skipping, galloping and stretching. Students will be working on legs, arms positions as well as coordination, rhythm timing and love of movement. Classroom etiquette is also introduced.

Based on a Vaganova Curriculum, we provide levelled ballet classes from toddlers to advanced ballet technique. Aiming to bring up a younger generation of society and global awareness, we are constantly sending our students to performance stages and international competitions worldwide.

TRAINER PROFILE: YUKI UEMATSU

Ms Uematsu's love for ballet started at the age of 8 in Ballet Baguio, Philippines under Jacqueline Go as her Artistic Director.

Ms Uematsu has more than a decade of experience in dancing, teaching, performing and choreographing under guest artists such as Lobreza, Pimental, Osias Barroso, Prima, Ballerina, Lisa Macuja and many more.

PIANO

SCIA
Singapore Cambodia
International Academy
Enrichment Hub

### WITH MATHIAS ASPELIN

Piano lessons are a fundamental way to gain a broad appreciation of music. However, the real benefits that arise from playing the piano are primarily non-musical. A piano student learns to read two lines of music, use both ears, arms, legs, feet, and all ten fingers, with the brain giving each body part a different assignment to perform simultaneously. No other activity allows a child to exercise all of these skills in such a constructive manner.

TRAINER PROFILE:
MATHIAS ASPELIN

Mr Aspelin studied the piano at the Sibelius Academy in Helsinki and under NEA Jazz Master Joanne Brackeen in Boston. He was a Fulbright grantee and held a scholarship from the John Coltrane Foundation in the US, where he performed with established artists.

He is currently professor of composition at the Phnom Penh International Institute of the Arts and was recently invited to perform Mozart's piano concerto with the Phnom Penh Symphony Orchestra.

COMICS CREATION

SCIA
Singapore Cambodia
International Academy
Enrichment Centre

WITH JOSHUA CHIANG

In this 10-module programme, students will be taken through the entire hands-on process of writing and drawing comics, from coming up with unique ideas to writing the script, to character designing and sketching and finishing the comic. At the end of the course, students will be proud owners of their very own original 8-10 page mini-comic!

More than just an instructional course, our teacher Joshua Chiang who is a Singaporean comic writer/artist with years of experience in children's animation - will impart a love for creativity and storytelling.

TRAINER PROFILE:
JOSHUA CHIANG

Joshua Chiang is a Singaporean self-taught writer/illustrator now based in Phnom Penh. Before coming to Cambodia he works as a freelance scriptwriter and storyboard artist for many international animated series produced in Singapore. Apart from being the creator of the comic book mini-series Ronin Rat and Ninja Cat, he is best known in Cambodia as the illustrator behind the popular Candid Cambodia series of artprints.

PORTRAIT CHARCOAL + SILHOUETTE PAINTING

SCIA
Singapore Cambodia
International Academy
Enrichment Centre

WITH ART ANGEL

Art Angel's portrait charcoal program is done using a form of dry art medium know as charcoal which are often used by artists for their versatile properties, such as the rough texture that leaves marks less permanent than other Visual arts media. Charcoals are used to produce lines that are very light or intensely black, while being easily removable, yet vulnerable to leaving stains on paper.

Art Angel's silhouette painting is an artistic way to draw an image of a person, animal, scenery or an object rendered in a single colour. It is often painted against a light coloured background. The beauty of silhouette painting is in the shapes that emerge, as a stark contrast to its background, like shadows of what they represent. In this type of art form, the subject often stands out and simply looks astonishingly beautiful.

Art Angel's mission is to share its expertise in the field of art, and deliver a systematic and well organized Art Programs/Courses/Workshops that will help develop and cultivate one's ability and creativity to produce art.

PORTRAIT PAINTING

SCIA
Singapore Cambodia
International Academy
Enrichment Centre

WITH ART ANGEL

Art Angel's portrait painting program is focused on teaching students how to execute and show their points of view by representing a specific human subject thru art. Portrait painting is expected to show the inner essence of the subject or a flattering representation, not just a literal likeness. Students will learn how to strive for photographic realism or an impressionistic similarity in depicting their subject.

Art Angel's mission is to share its expertise in the field of art, and deliver a systematic and well organized Art Programs/Courses/Workshops that will help develop and cultivate one's ability and creativity to produce art.

INTRODUCTION TO ARTIFICIAL INTELLIGENCE

SCIA
Singapore Cambodia
International Academy
Enrichment Centre

WITH TECH FOR KIDS

This course is designed to introduce students to the world of Artificial Intelligence (AI) by inspiring the students the power of AI and ts applications in various social activities. We have a dream to motivate the students to become leader and innovators in the future so that they can build the future with
technologies starting from a very young age.

Students will learn how program works through fun activities in class before moving to the exciting coding journey, designing innovative solutions with AI technology to solve community problems. Students will first
explore the concepts and deepen their comprehension toward AI through examples of AI models built by students from countries around the globe. At the second part of the course, students will be able to program their innovative solutions using AI technology with the provided mentoring sessions.

TRAINER PROFILE:

Mr Socretquuiqaa
- 4 years experience working as a Mobile Developer
- Winner of SmartStart Young Innovator Challenge in 2017
- Awardee of the SHARE Scholarship in 2018.
- Machine Learning Engineer for a private company,
- Artificial Intelligent (AI) Mentor for Tech for Kids.

Mr Bonpagna Kannis
- Passionate about data exploration, analysis, visualization, and data modeling in data science.
- Lecturer and researcher for the National Institute of Posts, Telecommunications, and ICT (NIPTICT), and a Senior.
- Mentor on Artificial Intelligence (AI) for Tech for Kids.

Mr Keanghok Lay
- Tech enthusiast and a cofounder of Catastore
- Online marketing place in Cambodia.
- Actively involved in several tech-based community projects
- Working as an AI project leader in a private company and an AI mentor forTech for Kids.

YOUNG APP DEVELOPER

SCIA
Singapore Cambodia
International Academy
Enrichment Centre

WITH TECH FOR KIDS

This course is designed to quickly introduce the App Lab programming environment as a powerful tool for building and sharing apps. The course itself teaches students to create and
control buttons, text, images, sounds, and screens in JavaScript using either blocks or text.

At the end of the course students are given time to either extend a project they started building into a "Choose Your Own Adventure" , "Greeting Card" or "Personality Quiz" app. They can also continue on to build more projects featured on our innovation space.

TRAINER PROFILE:

Mr. LYLADANG SUT
- Mr Lyladang worked as a part-time tech programing
- English instructors at various recognized international schools for two years.
- He worked as a Web Developer for Kosign Company.
- He graduated his bachelor degree in Information from the Royal University of Phnom Penh
- Bachelor of English Literature at Student Development Institute.

Mr. BORETH SETHY
- Boreth is a graduate of the Institute of Technology of Cambodia (ITC)
- He graduated his Bachelor of Engineering degree in Mechanical Engineering with a minor in Robotics.
- He is a mentor at Tech for Kids, where he passionately guided students in programming.
